The album "Lonely People Tivoli" is a reflection of the world, humanity and the phenomena that permeate our behavior towards each other.

- This is the artist's first album as SoLBLoMMa.
- The song "Lies Passes Your Mind" was featured in the highly popular Swedish TV series "Jordskott" 2015.
- She's had radio airplay in Sweden with several singles featured on this album and more tracks from the album will be released as singles in 2016.

SoLBLoMMa is emblematic of how one can picture an eccentric popartist. At the same time as she is fighting for the right to be different, she fights for the right to be paradoxal. Behind the Minnie Mouse approach and the ethereal fairy pop, that sounds like it was produced in a Hello Kitty-decorated girls room in Tokyo, there's this determined philosopher with a political pathos.

SoLBLoMMa fights for the right to be unique & paradoxal.
